The escrow agent is instructed to release the balance of the 83 funds on reserve to Seller once they receive notice from the local county auditor that the taxes on the land and 84 improvements have been paid in full to the date the title has been recorded. Realty Trust CONSUMER GUIDE TO Services CONSUMER GUIDE TO AGENCY RELATIONSHIPS

We are pleased you have selected **Realty Trust Services** to help you with your real estate needs. Whether you are selling, buying or leasing real estate, **Realty Trust Services** can provide you with expertise and assistance. Because this may be the largest financial transaction you will enter into, it is important to understand the role of the agents and brokers with whom you are working. Below is some information that explains the various services that agents can offer and their options for working with you:

Representing the Sellers

Most sellers of real estate choose to list their home for sale with a real estate brokerage. When they do so, they sign a listing agreement that authorizes the brokerage and the listing agent to represent their interests. As the seller's agent, the brokerage and listing agent must: follow the seller's lawful instructions, be loyal to the seller, promote the seller's best interests, disclose material facts to the seller, maintain confidential information, act with reasonable skill and care, and account for any money they handle in the transaction. In rare circumstances, a listing broker may offer "subagency" to other brokerages, which would also represent the seller's interests and owe the seller these same duties.

Representing Buyers

When purchasing real estate, buyers usually choose to work with a real estate agent as well. Often the buyers want to be represented in the transaction. When they do so, they sign an agency agreement that authorizes the brokerage and the buyer's agent to represent their interests. This is referred to as buyer's agency. A brokerage and agent that agree to represent a buyer's interest in a transaction must: follow the buyer's lawful instructions, be loyal to the buyer, promote the buyer's best interests, disclose material facts to the buyer, maintain confidential information, and account for any money they handle in the transaction.

Dual Agency

Occasionally, the same agent and brokerage that represent the seller also represent the buyer. This is referred to as dual agency. When a brokerage and its agents become "dual agents," they must maintain a neutral position between the buyer and the seller. They may not advocate the position of one client over the best interests of the other client, or disclose any personal or confidential information to the other party without written consent.

Representing Both the Buyer & Seller

On occasion, the buyer and seller will each be represented by two different agents from the same brokerage. In this case, the agents may each represent the best interest of their respective clients. Or, depending on company policy, the agents may both act as dual agents and remain neutral in the transaction. When either of the above occurs, the brokerage will be considered a dual agent. As a dual agent, the brokerage and its managers will maintain a neutral position and cannot advocate for the position of one client over another. The brokerage will also protect the confidentiality of all parties.

For more information on agency law in Ohio, contact the Ohio Division of Real Estate & Professional Licensing at (614) 466-4100, or online at www.com.ohio.gov/real.

Working With Realty Trust Services- Our Policy On Agency

Realty Trust Services does offer representation to both buyers and sellers. Therefore, the potential exists for one agent to represent a buyer who wishes to purchase property listed with another agent in our company. If this occurs, each agent will represent their own client, but **Realty Trust Services** and its managers will act as a dual agent. This means the brokerage and its managers will maintain a neutral position and not take any actions that will favor one side over the other. **Realty Trust Services** will still supervise both agents to assure that their respective clients are being fully represented and will protect the parties' confidential information.

In the event that both the buyer and seller are represented by the same agent, the agent and **Realty Trust Services** will act as a dual agent but only if both parties agree. As a dual agent, they will treat both parties honestly, prepare

and present offers at the direction of the parties, and help the parties fulfill the terms of any contract. They will not, however, disclose any confidential information that would place one party at an advantage over the other or advocate or negotiate to the detriment of either party.

If dual agency occurs, you will be asked to consent to that in writing. If you do not agree to your agent acting as a dual agent, you can ask that another agent in our company be assigned to represent you, you can seek representation from another brokerage or you choose to be unrepresented by an agent.

As a buyer, you may also choose to represent yourself on properties **Realty Trust Services** has listed. In that instance, **Realty Trust Services** will represent the seller and you would represent your own best interests. Because the listing agent has a duty of full disclosure to the seller, you should not share any information with the listing agent that you would not want the seller to know.

Working With Other Brokerages

When **Realty Trust Services** lists property for sale, it also cooperates with, and offers compensation to, other brokerages that represent buyers. **Realty Trust Services** does reserve the right, in some instances, to vary the compensation it offers to other brokerages. As a seller, you should understand that just because **Realty Trust Services** shares a fee with a brokerage representing the buyer, it does not mean that you will be represented by that brokerage. Instead, that company will be looking out for the buyer and **Realty Trust Services** will be representing your interests. When acting as a buyer's agent, **Realty Trust Services** also accepts compensation offered by the listing broker. If the property is not listed with any broker, or the listing broker does not offer compensation, we will attempt to negotiate for a seller-paid fee.

Fair Housing Statement

It is illegal, pursuant to the Ohio Fair Housing Law, division (H) of Section 4112.02 of the Revised Code and the Federal Fair Housing Law, 42 U.S.C.A. 3601, to refuse to sell, transfer, assign, rent, lease, sublease or finance housing accommodations, refuse to negotiate for the sale or rental of housing accommodations, or otherwise deny or make unavailable housing accommodations because of race, color, religion, sex, familial status as defined in Section 4112.01 of the Revised Code, ancestry, military status as defined in that section, disability as defined in that section, or national origin or to so discriminate in advertising the sale or rental of housing, in the financing of housing, or in the provision of real estate brokerage services. It is also illegal, for profit, to induce or attempt to induce a person to sell or rent a dwelling by representations regarding the entry into the neighborhood of a person or persons belonging to one of the protected classes. (Effective: 3/25/08)

We hope you find this information to be helpful to you as you begin your real estate transaction. When you are ready to enter into a transaction, you will be given an Agency Disclosure Statement that specifically identifies the role of the agents and brokerages. Please ask questions if there is anything you do not understand. If you want to see the Realty Trust Services complete Agency Policy or have further questions feel free to call our broker Andrew W Morris at 440-427-0123.

Because it is important that you have this information, Ohio law requires that we ask you to sign below to acknowledge receipt of this pamphlet. Your signature will not obligate you to work with our company if you do not choose to do so.

DUAL AGENCY

Ohio law permits a real estate agent and brokerage to represent both the seller and buyer in a real estate transaction as long as this is disclosed to both parties and they both agree. This is known as dual agency. As a dual agent, a real estate agent and brokerage represent two clients whose interests are, or at times could be, different or adverse. For this reason, the dual agent(s) may not be able to advocate on behalf of the client to the same extent the agent may have if the agent represented only one client.

As a dual agent, the agent(s) and brokerage shall:

- Treat both clients honestly;
- Disclose latent (not readily observable) material defects to the purchaser, if known by the agent(s) or brokerage;
- Provide information regarding lenders, inspectors and other professionals, if requested;
- Provide market information available from a property listing service or public records, if requested;
- Prepare and present all offers and counteroffers at the direction of the parties;
- Assist both parties in completing the steps necessary to fulfill the terms of any contract, if requested.

As a dual agent, the agent(s) and brokerage shall not:

- Disclose information that is confidential, or that would have an adverse effect on one party's position in the transaction, unless such disclosure is authorized by the client or required by law;
- Advocate or negotiate on behalf of either the buyer or seller;
- Suggest or recommend specific terms, including price, or disclose the terms or price a buyer is willing to offer or that a seller is willing to accept;
- Engage in conduct that is contrary to the instructions of either party and may not act in a biased manner on behalf of one party.

Compensation: Unless agreed otherwise, the brokerage will be compensated per the agency agreement.

Management Level Licensees: Generally, the principal broker and managers in a brokerage also represent the interests of any buyer or seller represented by an agent affiliated with that brokerage. Therefore, if both buyer and seller are represented by agents in the same brokerage, the principal broker and manager are dual agents. There are two exceptions to this. The first is where the principal broker or manager is personally representing one of the parties. The second is where the principal broker or manager is selling or buying his own real estate. These exceptions only apply if there is another principal broker or manager to supervise the other agent involved in the transaction.

Responsibilities of the Parties: The duties of the agent and brokerage in a real estate transaction do not relieve the buyer and seller from the responsibility to protect their own interests. The buyer and seller are advised to carefully read all agreements to assure that they adequately express their understanding of the transaction. The agent and brokerage are qualified to advise on real estate matters. IF LEGAL OR TAX ADVICE IS DESIRED, YOU SHOULD CONSULT THE APPROPRIATE PROFESSIONAL.

Consent: By signing on the reverse side, you acknowledge that you have read and understand this form and are giving your voluntary, informed consent to the agency relationship disclosed. If you do not agree to the agent(s) and/or brokerage acting as a dual agent, you are not required to consent to this agreement and you may either request a separate agent in the brokerage to be appointed to represent your interests or you may terminate your agency relationship and obtain representation from another brokerage.

Any questions regarding the role or responsibilities of the brokerage or its agents should be directed to: Ohio Department of Commerce Division of Real Estate & Professional Licensing 77 S. High Street, 20th Floor Columbus, OH 43215-6133

DUAL AGENCY

Ohio law permits a real estate agent and brokerage to represent both the seller and buyer in a real estate transaction as long as this is disclosed to both parties and they both agree. This is known as dual agency. As a dual agent, a real estate agent and brokerage represent two clients whose interests are, or at times could be, different or adverse. For this reason, the dual agent(s) may not be able to advocate on behalf of the client to the same extent the agent may have if the agent represented only one client.

As a dual agent, the agent(s) and brokerage shall:

- Treat both clients honestly;
- Disclose latent (not readily observable) material defects to the purchaser, if known by the agent(s) or brokerage;
- Provide information regarding lenders, inspectors and other professionals, if requested;
- Provide market information available from a property listing service or public records, if requested;
- Prepare and present all offers and counteroffers at the direction of the parties;
- Assist both parties in completing the steps necessary to fulfill the terms of any contract, if requested.

As a dual agent, the agent(s) and brokerage shall not:

- Disclose information that is confidential, or that would have an adverse effect on one party's position in the transaction, unless such disclosure is authorized by the client or required by law;
- Advocate or negotiate on behalf of either the buyer or seller;
- Suggest or recommend specific terms, including price, or disclose the terms or price a buyer is willing to offer or that a seller is willing to accept;
- Engage in conduct that is contrary to the instructions of either party and may not act in a biased manner on behalf of one party.

Compensation: Unless agreed otherwise, the brokerage will be compensated per the agency agreement.

Management Level Licensees: Generally, the principal broker and managers in a brokerage also represent the interests of any buyer or seller represented by an agent affiliated with that brokerage. Therefore, if both buyer and seller are represented by agents in the same brokerage, the principal broker and manager are dual agents. There are two exceptions to this. The first is where the principal broker or manager is personally representing one of the parties. The second is where the principal broker or manager is selling or buying his own real estate. These exceptions only apply if there is another principal broker or manager to supervise the other agent involved in the transaction.

Responsibilities of the Parties: The duties of the agent and brokerage in a real estate transaction do not relieve the buyer and seller from the responsibility to protect their own interests. The buyer and seller are advised to carefully read all agreements to assure that they adequately express their understanding of the transaction. The agent and brokerage are qualified to advise on real estate matters. IF LEGAL OR TAX ADVICE IS DESIRED, YOU SHOULD CONSULT THE APPROPRIATE PROFESSIONAL.

Consent: By signing on the reverse side, you acknowledge that you have read and understand this form and are giving your voluntary, informed consent to the agency relationship disclosed. If you do not agree to the agent(s) and/or brokerage acting as a dual agent, you are not required to consent to this agreement and you may either request a separate agent in the brokerage to be appointed to represent your interests or you may terminate your agency relationship and obtain representation from another brokerage.

Realty Trust CONSUMER GUIDE TO Services CONSUMER GUIDE TO AGENCY RELATIONSHIPS

We are pleased you have selected **Realty Trust Services** to help you with your real estate needs. Whether you are selling, buying or leasing real estate, **Realty Trust Services** can provide you with expertise and assistance. Because this may be the largest financial transaction you will enter into, it is important to understand the role of the agents and brokers with whom you are working. Below is some information that explains the various services that agents can offer and their options for working with you:

Representing the Sellers

Most sellers of real estate choose to list their home for sale with a real estate brokerage. When they do so, they sign a listing agreement that authorizes the brokerage and the listing agent to represent their interests. As the seller's agent, the brokerage and listing agent must: follow the seller's lawful instructions, be loyal to the seller, promote the seller's best interests, disclose material facts to the seller, maintain confidential information, act with reasonable skill and care, and account for any money they handle in the transaction. In rare circumstances, a listing broker may offer "subagency" to other brokerages, which would also represent the seller's interests and owe the seller these same duties.

Representing Buyers

When purchasing real estate, buyers usually choose to work with a real estate agent as well. Often the buyers want to be represented in the transaction. When they do so, they sign an agency agreement that authorizes the brokerage and the buyer's agent to represent their interests. This is referred to as buyer's agency. A brokerage and agent that agree to represent a buyer's interest in a transaction must: follow the buyer's lawful instructions, be loyal to the buyer, promote the buyer's best interests, disclose material facts to the buyer, maintain confidential information, and account for any money they handle in the transaction.

Dual Agency

Occasionally, the same agent and brokerage that represent the seller also represent the buyer. This is referred to as dual agency. When a brokerage and its agents become "dual agents," they must maintain a neutral position between the buyer and the seller. They may not advocate the position of one client over the best interests of the other client, or disclose any personal or confidential information to the other party without written consent.

Representing Both the Buyer & Seller

On occasion, the buyer and seller will each be represented by two different agents from the same brokerage. In this case, the agents may each represent the best interest of their respective clients. Or, depending on company policy, the agents may both act as dual agents and remain neutral in the transaction. When either of the above occurs, the brokerage will be considered a dual agent. As a dual agent, the brokerage and its managers will maintain a neutral position and cannot advocate for the position of one client over another. The brokerage will also protect the confidentiality of all parties.

Working With Realty Trust Services- Our Policy On Agency

Realty Trust Services does offer representation to both buyers and sellers. Therefore, the potential exists for one agent to represent a buyer who wishes to purchase property listed with another agent in our company. If this occurs, each agent will represent their own client, but **Realty Trust Services** and its managers will act as a dual agent. This means the brokerage and its managers will maintain a neutral position and not take any actions that will favor one side over the other. **Realty Trust Services** will still supervise both agents to assure that their respective clients are being fully represented and will protect the parties' confidential information.

In the event that both the buyer and seller are represented by the same agent, the agent and **Realty Trust Services** will act as a dual agent but only if both parties agree. As a dual agent, they will treat both parties honestly, prepare

and present offers at the direction of the parties, and help the parties fulfill the terms of any contract. They will not, however, disclose any confidential information that would place one party at an advantage over the other or advocate or negotiate to the detriment of either party.

If dual agency occurs, you will be asked to consent to that in writing. If you do not agree to your agent acting as a dual agent, you can ask that another agent in our company be assigned to represent you, you can seek representation from another brokerage or you choose to be unrepresented by an agent.

As a buyer, you may also choose to represent yourself on properties **Realty Trust Services** has listed. In that instance, **Realty Trust Services** will represent the seller and you would represent your own best interests. Because the listing agent has a duty of full disclosure to the seller, you should not share any information with the listing agent that you would not want the seller to know.

Working With Other Brokerages

When **Realty Trust Services** lists property for sale, it also cooperates with, and offers compensation to, other brokerages that represent buyers. **Realty Trust Services** does reserve the right, in some instances, to vary the compensation it offers to other brokerages. As a seller, you should understand that just because **Realty Trust Services** shares a fee with a brokerage representing the buyer, it does not mean that you will be represented by that brokerage. Instead, that company will be looking out for the buyer and **Realty Trust Services** will be representing your interests. When acting as a buyer's agent, **Realty Trust Services** also accepts compensation offered by the listing broker. If the property is not listed with any broker, or the listing broker does not offer compensation, we will attempt to negotiate for a seller-paid fee.

Fair Housing Statement

It is illegal, pursuant to the Ohio Fair Housing Law, division (H) of Section 4112.02 of the Revised Code and the Federal Fair Housing Law, 42 U.S.C.A. 3601, to refuse to sell, transfer, assign, rent, lease, sublease or finance housing accommodations, refuse to negotiate for the sale or rental of housing accommodations, or otherwise deny or make unavailable housing accommodations because of race, color, religion, sex, familial status as defined in Section 4112.01 of the Revised Code, ancestry, military status as defined in that section, disability as defined in that section, or national origin or to so discriminate in advertising the sale or rental of housing, in the financing of housing, or in the provision of real estate brokerage services. It is also illegal, for profit, to induce or attempt to induce a person to sell or rent a dwelling by representations regarding the entry into the neighborhood of a person or persons belonging to one of the protected classes. (Effective: 3/25/08)

We hope you find this information to be helpful to you as you begin your real estate transaction. When you are ready to enter into a transaction, you will be given an Agency Disclosure Statement that specifically identifies the role of the agents and brokerages. Please ask questions if there is anything you do not understand. If you want to see the Realty Trust Services complete Agency Policy or have further questions feel free to call our broker Andrew W Morris at 440-427-0123.

Because it is important that you have this information, Ohio law requires that we ask you to sign below to acknowledge receipt of this pamphlet. Your signature will not obligate you to work with our company if you do not choose to do so.

Protect Your Family From Lead in Your Home

United States Environmental Protection Agency

United States Consumer Product Safety Commission

United States Department of Housing and Urban Development

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- About health effects of lead
- · What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or leadbased paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

• Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or stateapproved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children avoid fatty (or high fat) foods and eat nutritious meals high in iron and calcium.
- Remove shoes or wipe soil off shoes before entering your house.

Lead Gets into the Body in Many Ways

Adults and children can get lead into their bodies if they:

- Breathe in lead dust (especially during activities such as renovations, repairs, or painting that disturb painted surfaces).
- Swallow lead dust that has settled on food, food preparation surfaces, and other places.
- Eat paint chips or soil that contains lead.

Lead is especially dangerous to children under the age of 6.

- At this age, children's brains and nervous systems are more sensitive to the damaging effects of lead.
- Children's growing bodies absorb more lead.
- Babies and young children often put their hands and other objects in their mouths. These objects can have lead dust on them.

Women of childbearing age should know that lead is dangerous to a developing fetus.

• Women with a high lead level in their system before or during pregnancy risk exposing the fetus to lead through the placenta during fetal development.

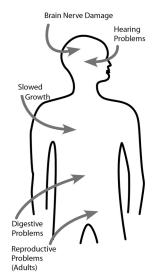

Health Effects of Lead

Lead affects the body in many ways. It is important to know that even exposure to low levels of lead can severely harm children.

In children, exposure to lead can cause:

- Nervous system and kidney damage
- Learning disabilities, attention deficit disorder, and decreased intelligence
- Speech, language, and behavior problems
- Poor muscle coordination
- Decreased muscle and bone growth
- Hearing damage

While low-lead exposure is most common, exposure to high amounts of lead can have devastating effects on children, including seizures, unconsciousness, and, in some cases, death.

Although children are especially susceptible to lead exposure, lead can be dangerous for adults, too.

In adults, exposure to lead can cause:

- Harm to a developing fetus
- Increased chance of high blood pressure during pregnancy
- Fertility problems (in men and women)
- High blood pressure
- Digestive problems
- Nerve disorders
- Memory and concentration problems
- Muscle and joint pain

Check Your Family for Lead

Get your children and home tested if you think your home has lead.

Children's blood lead levels tend to increase rapidly from 6 to 12 months of age, and tend to peak at 18 to 24 months of age.

Consult your doctor for advice on testing your children. A simple blood test can detect lead. Blood lead tests are usually recommended for:

- Children at ages 1 and 2
- Children or other family members who have been exposed to high levels of lead
- Children who should be tested under your state or local health screening plan

Your doctor can explain what the test results mean and if more testing will be needed.

Where Lead-Based Paint Is Found

In general, the older your home or childcare facility, the more likely it has lead-based paint.¹

Many homes, including private, federally-assisted, federallyowned housing, and childcare facilities built before 1978 have lead-based paint. In 1978, the federal government banned consumer uses of lead-containing paint.²

Learn how to determine if paint is lead-based paint on page 7.

Lead can be found:

- In homes and childcare facilities in the city, country, or suburbs,
- In private and public single-family homes and apartments,
- On surfaces inside and outside of the house, and
- In soil around a home. (Soil can pick up lead from exterior paint or other sources, such as past use of leaded gas in cars.)

Learn more about where lead is found at epa.gov/lead.

¹ "Lead-based paint" is currently defined by the federal government as paint with lead levels greater than or equal to 1.0 milligram per square centimeter (mg/cm), or more than 0.5% by weight.

² "Lead-containing paint" is currently defined by the federal government as lead in new dried paint in excess of 90 parts per million (ppm) by weight.

Identifying Lead-Based Paint and Lead-Based Paint Hazards

Deteriorating lead-based paint (peeling, chipping, chalking, cracking, or damaged paint) is a hazard and needs immediate attention. **Lead-based paint** may also be a hazard when found on surfaces that children can chew or that get a lot of wear and tear, such as:

- On windows and window sills
- Doors and door frames
- Stairs, railings, banisters, and porches

Lead-based paint is usually not a hazard if it is in good condition and if it is not on an impact or friction surface like a window.

Lead dust can form when lead-based paint is scraped, sanded, or heated. Lead dust also forms when painted surfaces containing lead bump or rub together. Lead paint chips and dust can get on surfaces and objects that people touch. Settled lead dust can reenter the air when the home is vacuumed or swept, or when people walk through it. EPA currently defines the following levels of lead in dust as hazardous:

- 40 micrograms per square foot (µg/ft²) and higher for floors, including carpeted floors
- + 250 $\mu g/ft^2$ and higher for interior window sills

Lead in soil can be a hazard when children play in bare soil or when people bring soil into the house on their shoes. EPA currently defines the following levels of lead in soil as hazardous:

- 400 parts per million (ppm) and higher in play areas of bare soil
- 1,200 ppm (average) and higher in bare soil in the remainder of the yard

Remember, lead from paint chips—which you can see—and lead dust—which you may not be able to see—both can be hazards.

The only way to find out if paint, dust, or soil lead hazards exist is to test for them. The next page describes how to do this.

Checking Your Home for Lead

You can get your home tested for lead in several different ways:

- A lead-based paint **inspection** tells you if your home has leadbased paint and where it is located. It won't tell you whether your home currently has lead hazards. A trained and certified testing professional, called a lead-based paint inspector, will conduct a paint inspection using methods, such as:
 - Portable x-ray fluorescence (XRF) machine
 - · Lab tests of paint samples
- A **risk assessment** tells you if your home currently has any lead hazards from lead in paint, dust, or soil. It also tells you what actions to take to address any hazards. A trained and certified testing professional, called a risk assessor, will:

- Sample paint that is deteriorated on doors, windows, floors, stairs, and walls
- Sample dust near painted surfaces and sample bare soil in the yard
- · Get lab tests of paint, dust, and soil samples
- A combination inspection and risk assessment tells you if your home has any lead-based paint and if your home has any lead hazards, and where both are located.

Be sure to read the report provided to you after your inspection or risk assessment is completed, and ask questions about anything you do not understand.

Checking Your Home for Lead, continued

In preparing for renovation, repair, or painting work in a pre-1978 home, Lead-Safe Certified renovators (see page 12) may:

- Take paint chip samples to determine if lead-based paint is present in the area planned for renovation and send them to an EPA-recognized lead lab for analysis. In housing receiving federal assistance, the person collecting these samples must be a certified lead-based paint inspector or risk assessor
- Use EPA-recognized tests kits to determine if lead-based paint is absent (but not in housing receiving federal assistance)
- Presume that lead-based paint is present and use lead-safe work practices

There are state and federal programs in place to ensure that testing is done safely, reliably, and effectively. Contact your state or local agency for more information, visit epa.gov/lead, or call **1-800-424-LEAD** (5323) for a list of contacts in your area.³

³ Hearing- or speech-challenged individuals may access this number through TTY by calling the Federal Relay Service at 1-800-877-8399.

What You Can Do Now to Protect Your Family

If you suspect that your house has lead-based paint hazards, you can take some immediate steps to reduce your family's risk:

- If you rent, notify your landlord of peeling or chipping paint.
- Keep painted surfaces clean and free of dust. Clean floors, window frames, window sills, and other surfaces weekly. Use a mop or sponge with warm water and a general all-purpose cleaner. (Remember: never mix ammonia and bleach products together because they can form a dangerous gas.)
- Carefully clean up paint chips immediately without creating dust.
- Thoroughly rinse sponges and mop heads often during cleaning of dirty or dusty areas, and again afterward.
- Wash your hands and your children's hands often, especially before they eat and before nap time and bed time.
- Keep play areas clean. Wash bottles, pacifiers, toys, and stuffed animals regularly.
- Keep children from chewing window sills or other painted surfaces, or eating soil.
- When renovating, repairing, or painting, hire only EPA- or stateapproved Lead-Safe Certified renovation firms (see page 12).
- Clean or remove shoes before entering your home to avoid tracking in lead from soil.
- Make sure children avoid fatty (or high fat) foods and eat nutritious meals high in iron and calcium. Children with good diets absorb less lead.

Reducing Lead Hazards

Disturbing lead-based paint or removing lead improperly can increase the hazard to your family by spreading even more lead dust around the house.

 In addition to day-to-day cleaning and good nutrition, you can temporarily reduce lead-based paint hazards by taking actions, such as repairing damaged painted surfaces and planting grass to cover leadcontaminated soil. These actions are not permanent solutions and will need ongoing attention.

- You can minimize exposure to lead when renovating, repairing, or painting by hiring an EPA- or statecertified renovator who is trained in the use of lead-safe work practices. If you are a do-it-yourselfer, learn how to use lead-safe work practices in your home.
- To remove lead hazards permanently, you should hire a certified lead abatement contractor. Abatement (or permanent hazard elimination) methods include removing, sealing, or enclosing lead-based paint with special materials. Just painting over the hazard with regular paint is not permanent control.

Always use a certified contractor who is trained to address lead hazards safely.

- Hire a Lead-Safe Certified firm (see page 12) to perform renovation, repair, or painting (RRP) projects that disturb painted surfaces.
- To correct lead hazards permanently, hire a certified lead abatement professional. This will ensure your contractor knows how to work safely and has the proper equipment to clean up thoroughly.

Certified contractors will employ qualified workers and follow strict safety rules as set by their state or by the federal government.

Reducing Lead Hazards, continued

If your home has had lead abatement work done or if the housing is receiving federal assistance, once the work is completed, dust cleanup activities must be conducted until clearance testing indicates that lead dust levels are below the following levels:

- 40 micrograms per square foot $(\mu g/ft^2)$ for floors, including carpeted floors
- 250 μ g/ft² for interior windows sills
- 400 μ g/ft² for window troughs

For help in locating certified lead abatement professionals in your area, call your state or local agency (see pages 14 and 15), or visit epa.gov/lead, or call 1-800-424-LEAD.

Renovating, Remodeling, or Repairing (RRP) a Home with Lead-Based Paint

If you hire a contractor to conduct renovation, repair, or painting (RRP) projects in your pre-1978 home or childcare facility (such as pre-school and kindergarten), your contractor must:

- Be a Lead-Safe Certified firm approved by EPA or an EPA-authorized state program
- Use qualified trained individuals (Lead-Safe Certified renovators) who follow specific lead-safe work practices to prevent lead contamination
- Provide a copy of EPA's lead hazard information document, The Lead-Safe Certified Guide to Renovate Right

RRP contractors working in pre-1978 homes and childcare facilities must follow lead-safe work practices that:

- **Contain the work area.** The area must be contained so that dust and debris do not escape from the work area. Warning signs must be put up, and plastic or other impermeable material and tape must be used.
- Avoid renovation methods that generate large amounts of lead-contaminated dust. Some methods generate so much lead-contaminated dust that their use is prohibited. They are:
 - Open-flame burning or torching
 - Sanding, grinding, planing, needle gunning, or blasting with power tools and equipment not equipped with a shroud and HEPA vacuum attachment and
 - Using a heat gun at temperatures greater than 1100°F
- **Clean up thoroughly.** The work area should be cleaned up daily. When all the work is done, the area must be cleaned up using special cleaning methods.
- **Dispose of waste properly.** Collect and seal waste in a heavy duty bag or sheeting. When transported, ensure that waste is contained to prevent release of dust and debris.

To learn more about EPA's requirements for RRP projects visit epa.gov/getleadsafe, or read *The Lead-Safe Certified Guide to Renovate Right*.

While paint, dust, and soil are the most common sources of lead, other lead sources also exist:

- **Drinking water.** Your home might have plumbing with lead or lead solder. You cannot see, smell, or taste lead, and boiling your water will not get rid of lead. If you think your plumbing might contain lead:
 - Use only cold water for drinking and cooking.
 - Run water for 15 to 30 seconds before drinking it, especially if you have not used your water for a few hours.

Call your local health department or water supplier to find out about testing your water, or visit epa.gov/lead for EPA's lead in drinking water information.

- Lead smelters or other industries that release lead into the air.
- Your job. If you work with lead, you could bring it home on your body or clothes. Shower and change clothes before coming home. Launder your work clothes separately from the rest of your family's clothes.
- **Hobbies** that use lead, such as making pottery or stained glass, or refinishing furniture. Call your local health department for information about hobbies that may use lead.
- Old toys and furniture may have been painted with lead-containing paint. Older toys and other children's products may have parts that contain lead.⁴
- Food and liquids cooked or stored in **lead crystal** or **lead-glazed pottery or porcelain** may contain lead.
- Folk remedies, such as "greta" and "azarcon," used to treat an upset stomach.

⁴ In 1978, the federal government banned toys, other children's products, and furniture with lead-containing paint (16 CFR 1303). In 2008, the federal government banned lead in most children's products. The federal government currently bans lead in excess of 100 ppm by weight in most children's products (76 FR 44463).

IMPORTANT!

Lead From Paint, Dust, and Soil in and Around Your Home Can Be Dangerous if Not Managed Properly

- Children under 6 years old are most at risk for lead poisoning in your home.
- Lead exposure can harm young children and babies even before they are born.
- Homes, schools, and child care facilities built before 1978 are likely to contain lead-based paint.
- Even children who seem healthy may have dangerous levels of lead in their bodies.
- Disturbing surfaces with lead-based paint or removing lead-based paint improperly can increase the danger to your family.
- People can get lead into their bodies by breathing or swallowing lead dust, or by eating soil or paint chips containing lead.
- People have many options for reducing lead hazards.
 Generally, lead-based paint that is in good condition is not a hazard (see page 10).
